• Date: December 2024 ~ January 2025

• Respondents: Number of Respondents: 1, 3 5 3 (Elem. 6 9 6 • J.H. 6 5 7) Number of Valid Responses : 5 9 9 (Elem. 3 3 3 • J.H. 2 6 6) Valid Response Rate : 4 4 . 3 %

◆Survey Results (Divided according to the following patterns)※The number of non-responses is subtracted from the number of responses.

Very Satisfied

Satisfied

Somewhat Satisfied

Not Satisfied at all

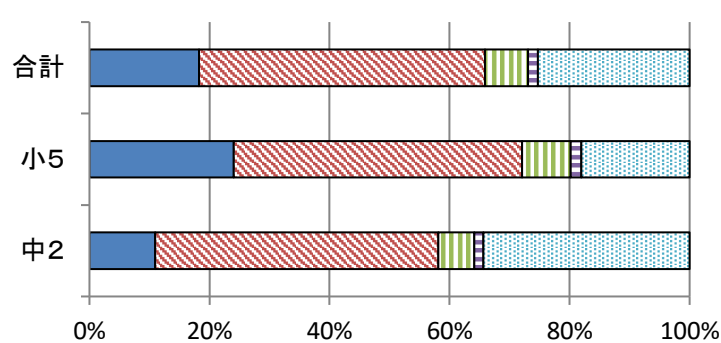

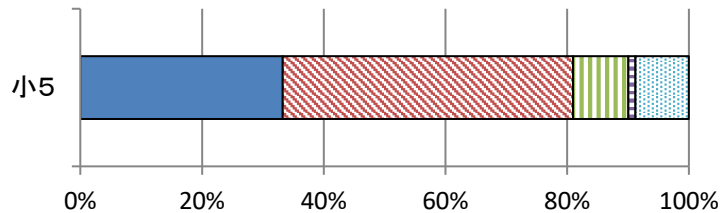

I don't know

Q1. How much do you know about the following measures being taken by Chiryu City? (Are you satisfied with them?).

- (1) Implementation of classes of 35 students or less for Elementary Schools students up to 6th grade.

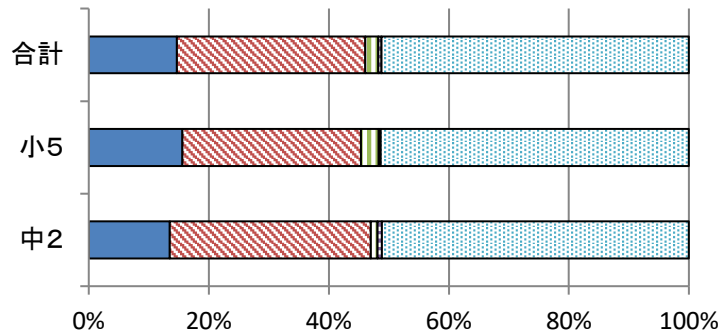

※ Chiryu City's own class of 35 students or less for 6th grade elementary school students.
- (2) Implementation of Human Support

※ 「Child Support Teachers」、 「Mental Counselors」、 「Support Assistants for Children with Developmental Disabilities」、 「Foreign Instructors for English Activities and • Foreign Languages」、 「School Library Promoters」

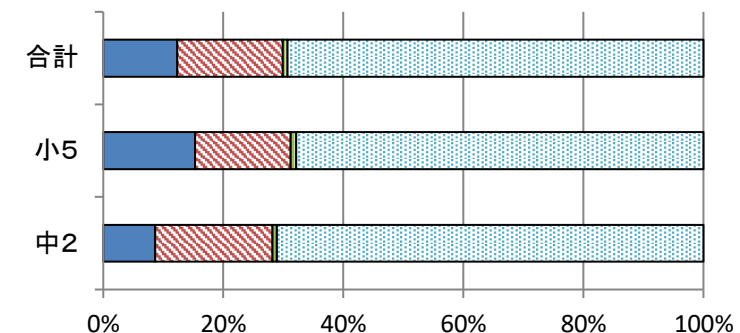

- (3) Musubi Ai Classroom

※ Operation of classrooms for children who do not attend school so that they can return to school life.

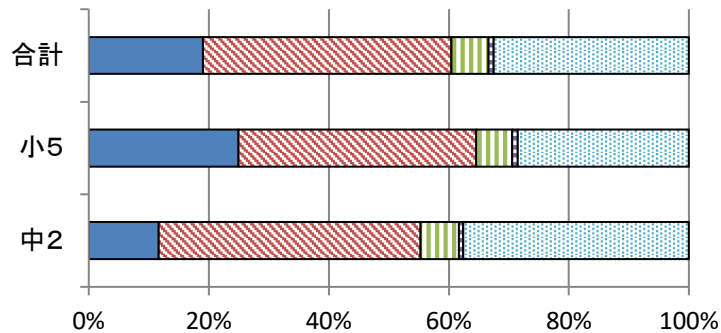

- (4) Kakitsubata Classroom

※ Classrooms for foreign children who have just arrived from overseas to provide basic instruction and help them adapt to Japanese school life.

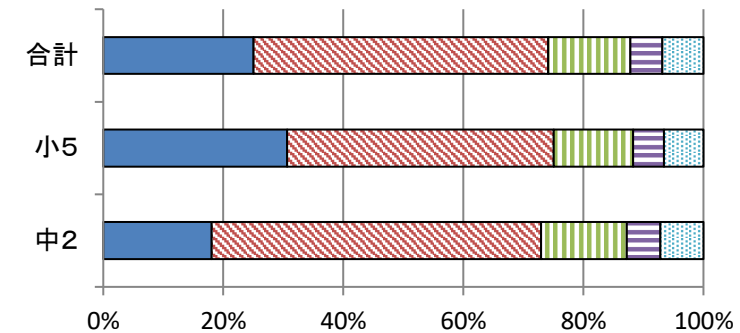

- (5) Attractive School Design Project

※ Each schools has a unique initiatives such as experiential activities, guest teachers when learning about traditional culture and high school tours.

- (6) Promoting the GIGA School Concept

※ Rental of tablet devices for classes using ICT devices, etc.

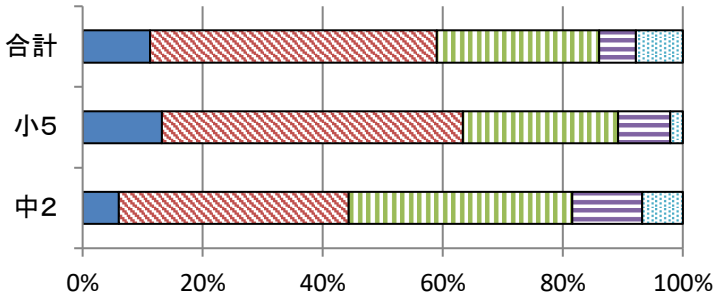

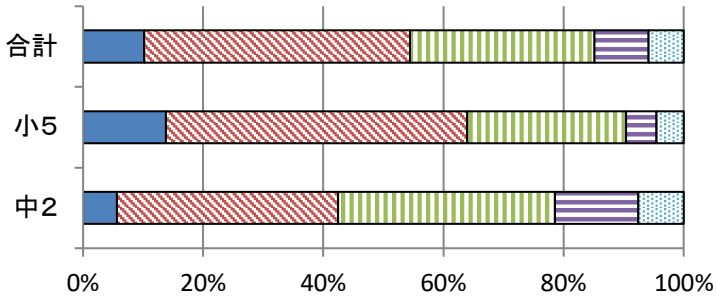

◆"Implementation of small-sized classes in elementary schools" Chiryu City's human resourcesuch as the placement of child support teachers and support staff for children with developmental disabilities, etc. Measures against the placement received a high over-all rating. In the future, we will continue or improve our current efforts . We aim to realize educational activities and support that are tailored to each child. ◆On the other-hand, about 60 percent of parents answered "I don't know" about "Establishing Musubi Ai Classroom" and about 7 percent of parents answered "I don't know" about "Establishing a Kakitsubata Classroom". It became clear that Chiryu City's support for children who do not attend school and children of foreign nationality is not well recognized. In the future, I think it will be necessary to communicate more clearly about Chiryu City's initiatives. ◆Regarding the "GIGA School Concept", compared to the survey 2 years ago, the number who answered "Very Satisfied" and "Somewhat Satisfied" will increase significantly of respondents has decreased. This seems to be the result of active educational activities using tablet devices over the past 2 years. In the future, the percentage of people will change. and we promise to continue researching ways to make even more effective in using tablet devices.

◆Survey Results (Divided according to the following patterns) * The number of non-responses is subtracted from the number of responses.

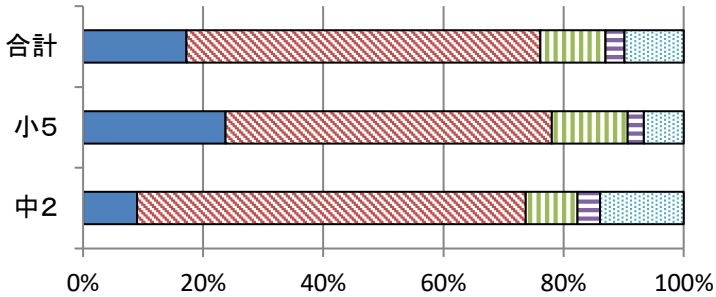

Q2. How satisfied are you with "Chiryu City's School Education"?

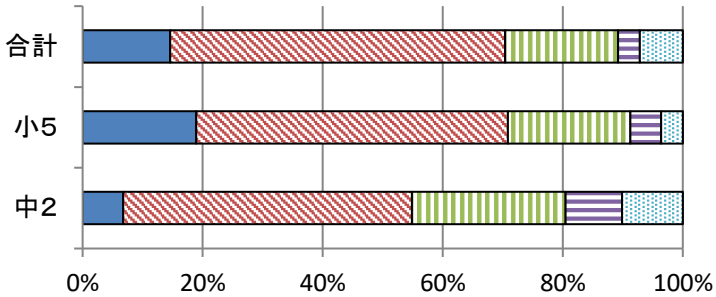

- (1) Academic Level
- (2) Contents of Homework / Assignment

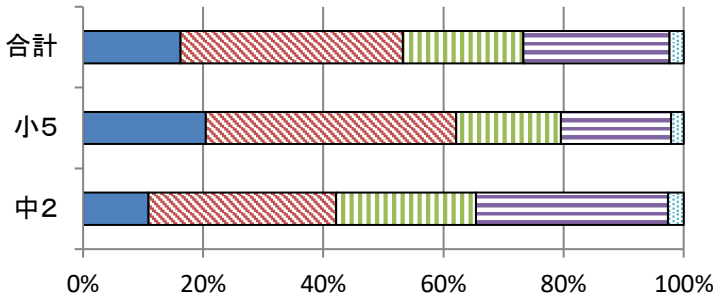

- (3) Efforts to foster compassion and a rich heart and life education

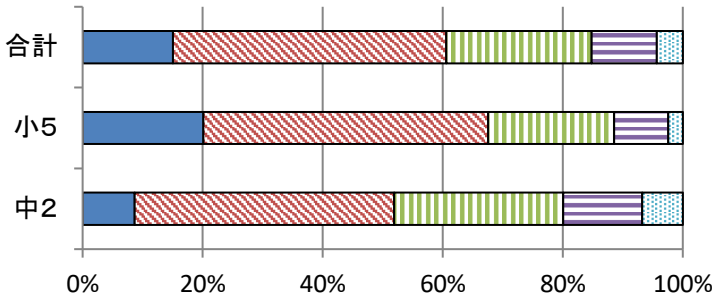

- (4) Physical Fitness • Health Initiatives

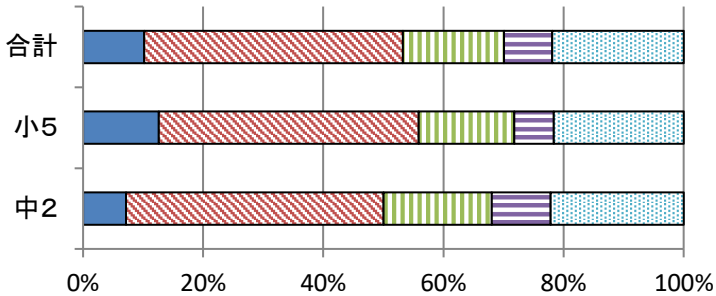

- (5) Implementation of two-term school syster

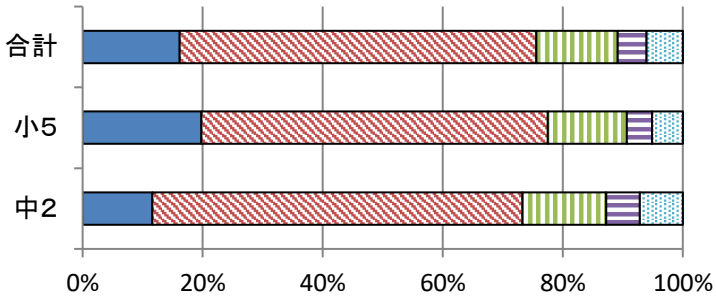

- (6) Teacher Qualifications and Leadershi

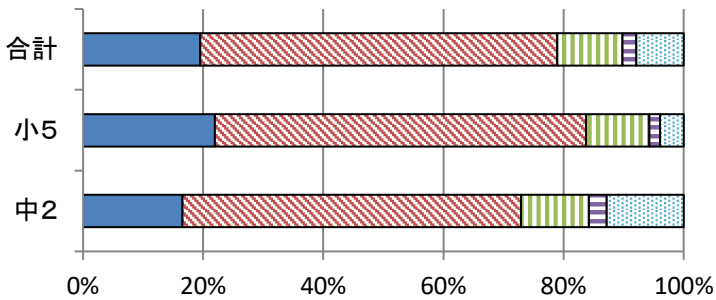

- (7) Measures against bullying and school refusal information and moral guidance

- (8) Creating open schools

- (9) Creating Safe • Secure School

◆Regarding the educational activities of elementary and junior high schools in Chiryu City. The respondents were "Very Satisfied" and "Somewhat Satisfied" with regards to "cultivating a caring heart, enriching the mind , and educating people about life" and "creating safe and secure schools. "There were about 70 percent. In the future, in elementary and junior high schools, we will continue to to foster children who can respect themselves and those around them. Children who can value their own and other's lives. And children who can think and act for themselves. We will continue to create school's were children can live their lives.

◆We received a variety of opinions from parents in the free writing section. We will ensure that information is shared among each elementary and junior high school. We will make comprehensive decisions and utilize this information in the future development of our schools. We ask for the continued understanding and cooperation of parents and guardians.
